MARKET ANNOUNCEMENT

- FBL signs MoU with Alliance Française

FBL signed a Memorandum of Understanding with Alliance Française de Suva on 10 May 2019 that will see Alliance Française using FBL's campus in Nadi to offer French Classes to its clients. The classes will begin from today and will continue for 14 weeks.

Alliance Française Executive Director Thomas Feldstein said "For Alliance Française, this MoU means that we are back in Nadi! We used to teach French in Nadi a few years ago and we do it again from January thanks to the Ministry of Education and the agreement we have with Ratu Navula College."

He added, "With a French teacher based in the Nadi area, we are able to offer French classes to schools, corporates or for private tuitions. Considering that this area is fully involved in the tourism industry, learning French can be an asset for many people. Signing a MoU with an educational body like Free Bird Institute shows that we diversify our partnerships and we are really settling in this area."

Executive Director for FBL, Waisale Iowane said "We are equally excited to welcome Alliance Française to use our campus facilities to provide French classes to their clients. We both provide language programmes to our respective clientele and this also provides additional revenue to FBL from the idle classroom(s) that will be used by Alliance Française outside FBL's normal school hours."

Waisale added, "We look forward to more opportunities that could possibly arise from this partnership and hope that by having such an agreement in place, allows more Fijians and others to access language programmes offered by Alliance Française."

Yours sincerely

Hiroshi Taniguchi
